GENERAL INFO

CASALA CERTIFICATION

For many years Casala has been working with dedicated suppliers and producers who comply with ISO 14001. This standard is used worldwide to assess environmental management systems. Casala furniture incorporates wood and wood-related products sourced from responsibly managed forests without harming the needs of future users. Thanks to the established quality requirements and control of production processes, Casala's contract furniture guarantees excellent quality, durability and a long life.

CASALA MAINTENANCE

You can find the Casala general maintenance guide at:
www.casala.com/maintenance.

CASALA GUARANTEE

Casala guarantees that delivered products retain their functional properties for a period of 5 years. The warranty period starts on the date of delivery and is not interrupted, impeded or renewed when a warranty service has been provided.

CASALA CIRCULAR ECONOMY

Casala realises it is responsible for the environment and the economic and social well-being of our world and considers it important to make a structural contribution. Our objective with regard to the Circular Economy is simple: successful corporate social responsibility with focus on a sustainable world. Casala continually strives to reduce the environmental impact in the development of our products.

During the design phase we determine the products and materials and examine their impact and behaviour in the product chain. These choices are the basis of conscientious management of products and materials. For many years Casala has been manufacturing furniture with as much recycled raw materials as possible. These materials mainly originate in Western Europe. The required transport kilometers are therefore kept to a minimum. This contributes to the lowest possible CO₂ emissions.

CASALA CIRCULAR GUARANTEE

Furniture is frequently discarded after use and seen as waste. This is unnecessary, as the parts are often not at the end of their life cycle. Therefore Casala chooses to refurbish many items from its product range and offers a circular guarantee on multiple programs.

When purchasing new furniture, you decide in consultation with Casala whether you want to make use of Casala's circular guarantee. Casala circular guarantee comes with an official certificate. The moment you want to replace your certified used furniture, you can return the existing and you will receive a cash refund. A nice start for the purchase of other furniture with the same quality and warranty conditions as new. This contributes to a more sustainable world, the foundation of Circular Economy.
